Description

The IRF6636PbF combines the latest HEXFET® Power MOSFET Silicon technology with the advanced DirectFET™ packaging to achieve the lowest on-state resistance in a package that has the footprint of a MICRO-8 and only 0.7 mm profile. The DirectFET package is compatible with existing layout geometries used in power applications, PCB assembly equipment and vapor phase, infra-red or convection soldering techniques, when application note AN-1035 is followed regarding the manufacturing methods and processes. The DirectFET package allows dual sided cooling to maximize thermal transfer in power systems, improving previous best thermal resistance by 80%.

The IRF6636PbF balances both low resistance and low charge along with ultra low package inductance to reduce both conduction and switching losses. The reduced total losses make this product ideal for high efficiency DC-DC converters that power the latest generation of processors operating at higher frequencies. The IRF6636PbF has been optimized for parameters that are critical in synchronous buck operating from 12 volt buss converters including $R_{ds(on)}$ and gate charge to minimize losses in the control FET socket.

Absolute Maximum Ratings

	Parameter	Max.	Units
V_{DS}	Drain-to-Source Voltage	20	V
V_{GS}	Gate-to-Source Voltage	± 20	
I_D @ $T_A = 25^\circ C$	Continuous Drain Current, $V_{GS} @ 10V$ ③	18	A
I_D @ $T_A = 70^\circ C$	Continuous Drain Current, $V_{GS} @ 10V$ ③	15	
I_D @ $T_C = 25^\circ C$	Continuous Drain Current, $V_{GS} @ 10V$ ④	81	
I_{DM}	Pulsed Drain Current ⑤	140	
E_{AS}	Single Pulse Avalanche Energy ⑥	28	mJ
I_{AR}	Avalanche Current ⑤	14	A

	Linear Derating Factor ③	0.017	W/°C	

Fig 3. Maximum Effective Transient Thermal Impedance, Junction-to-Ambient

Notes:

- ⑨ Used double sided cooling , mounting pad.
- ⑩ Mounted on minimum footprint full size board with metalized back and with small clip heatsink.

① R₀ is measured at T_j of approximately 90°C.

③ Surface mounted on 1 in. square Cu (still air).

⑤ Mounted to a PCB with small clip heatsink (still air)

⑩ Mounted on minimum footprint full size board with metalized back and with small clip heatsink (still air)
